Castle Road
Geotour

Hello, my name's Karli!

I travel the Castle Road in search of hidden treasure and have many exciting adventures along the way. Will you join me in solving the riddles and uncovering the secrets of these hallowed halls?

How do you find the treasure?

There are 26 castles along the route marked with treasures (caches) that you need to find. If you visit all of them and finish all the tasks on the entire tour, you can unlock a souvenir in your geocaching profile as a reward. Particularly tricky challenges await you in six of the castles (main caches). Once you have found these main geocaches, use the round stamp found in them to stamp the appropriate round space on the map. You will also receive small rewards that can be picked up at that particular castle after the task has been completed.

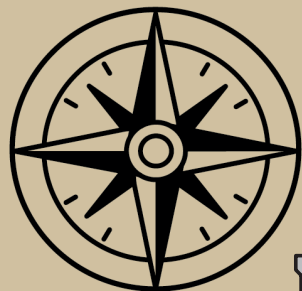

Once you have collected all six stamps and completed three additional tasks at one of the castles marked in yellow on the card, you will receive the exclusive Tour Geocoin* free of charge as a reminder of your adventure. Completion of the additional tasks must be confirmed by the respective castle with a note on one of the three picture frames on the treasure map.

Further information and all details can be found on the official webpage of the "Castle Road GeoTour". Just scan the QR code on the left on the back. Have lots of fun on your treasure hunt and many wonderful hours in Austria and Slovenia!

What is geocaching?
[Click here for an explanatory video](#)

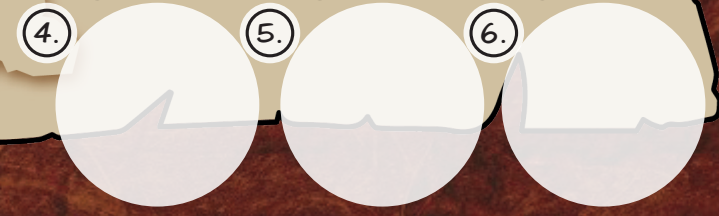

*The Geocoin can only be picked up at the six main castles.
